

For the benefit of feeding vulnerable people

SAF

More than a dozen diners attend the Family Care System every day, located in the Tumba Cuatro Cafeteria, explained the unit's administrator, Irandis Frómeta García.

The establishment's workers make efforts to offer a balanced diet to these people, although the service is affected by instability in supplies.

The menu for the beneficiaries of the Family Care System in Tumba Cuatro includes a main course, rice, stew, root vegetables and salad, adapting to the time of year.

In addition, the producers of the Sergio González Credit and Services Cooperative (CCS) support with the delivery of agricultural products, which allows producers to diversify the offer as much as possible.
